2. **Release the Aircraft:** Once the round starts, the plane takes off, ascending vertically or diagonally across the screen.
3. **Collect Multipliers:** As the aircraft climbs, it experiences various multipliers, stars, and fuel products drifting in the airspace. Travelling through these items increases the overall payment for the round.
4. **Manage Fuel:** The aircraft runs on a limited fuel supply. Every second in the air consumes fuel, and gamers must gather fuel refills to keep the flight going.
