A plane removes, and as it rises, a multiplier coefficient boosts. The goal is basic: players need to squander their earnings before the airplane unexpectedly flies away. If a player fails to squander before the crash, their stake is lost.

- **Speed and Instant Gratification:** Unlike football wagering, where gamers need to wait 90 minutes (or longer for multi-bets) to see the outcome, an Aviator round lasts anywhere from a few seconds to less than a minute.
- **Control Over Gameplay:** Players feel a sense of firm. Instead of letting fate decide a slot spin, the gamer actively chooses the specific moment to secure their revenue.
- **Low Entry Barrier:** Most Kenyan wagering websites enable gamers to position stakes as low as 10 KES, making the game accessible to casual players and high rollers alike.

- **The objective:** Minimize risk while keeping the door open for a high-paying payment.

3. Bankroll Management
