To preserve a profit, gambling establishments adjust the payout odds or introduce a small fee.

Function Fair Coin Toss (Real World) Standard Casino Coin Flip **Likelihood of Heads** 50.00% ~ 49.5% to 50.00% (depending on RNG) **Probability of Tails** 50.00% ~ 49.5% to 50.00% (depending upon RNG) **Standard Payout** 2.00 x (Even Money) 1.96 x to 1.98 x (or 2.00 x with a 1-2% house cost) **House Edge** 0.00% Typically 1% to 3%

As displayed in the table above, the house edge is generally baked into the payout structure or taken as a tiny commission on winning bets.
