What is a Live Casino?

A live casino is an online video gaming platform that streams real-life casino games in real-time from specifically designed studios or real land-based casino floors. Unlike basic digital casino games that rely on Random Number Generators (RNGs) to determine outcomes, live casino video games include human croupiers and dealers managing physical devices-- such as actual live roulette wheels, genuine card decks, and real dice.

Players see the action unfold via high-definition (HD) video streaming and can position bets, connect with the dealer, and chat with other players using an user-friendly digital user interface on their devices.
