- **How it works:** Utilize the dual-bet panel. Place a bigger stake on Bet A with a low auto-cashout (e.g., 1.50 x) to secure a fast return, and put a smaller stake on Bet B, leaving it to run manually for a high-risk, high-reward multiplier.
- **Why use it:** This cushions possible losses by covering the initial stake with the very first bet while keeping the door open for a huge catch on the 2nd.

3. The Martingale System (High Risk)

- **How it works:** Double your bet after every loss in an attempt to recover previous deficits when you lastly protect a win.
- **Why utilize it:** It is popular amongst thrill-seekers, however **caution is recommended**. An extended streak of early crashes can rapidly diminish a bankroll.
