What is Crazy Time?

Crazy Time is a live online video game show hosted by a passionate presenter. The core of the video game is a massive, vertically installed wheel containing 54 segments. Players place bets on where they think the wheel will stop after a spin.

What separates Crazy Time from traditional wheel games-- like *Dream Catcher*-- is the inclusion of 4 interactive perk rounds. These bonus games take players into completely different virtual environments where the potential for substantial multipliers enters play.

The Wheel Breakdown

To make informed bets, players should initially understand the layout of the wheel. Not all sections are created equal; numbers appear more frequently, while the lucrative bonus rounds are much scarcer.

Wheel Segment Payment/ Function Number of Segments on Wheel Probability (%) **1** Pays 1:1 21 38.89% **2** Pays 2:1 13 24.07% **5** Pays 5:1 7 12.96% **10** Pays 10:1 4 7.41% **Coin Flip** Activates Bonus Game 4 7.41% **Cash Hunt** Sets Off Bonus Game 2 3.70% **Pachinko** Triggers Bonus Game 2 3.70% **Crazy Time** Activates Bonus Game 1 1.85%

Understanding the Top Slot and Multipliers

Before every spin of the main wheel, a smaller sized two-reel slots located directly above the wheel-- referred to as the **Top Slot**-- spins concurrently.

- **How it works:** The Top Slot produces one random wheel segment (a number or a reward video game) and pairs it with a random multiplier ranging from 2x to 50x.
- **The Result:** If the primary wheel arrive at the specific segment displayed in the Top Slot, the multiplier is used to that spin. If it is a number bet, the payment is increased. If it is a bonus video game, the multipliers within the benefit round are boosted accordingly.

The Four Crazy Time Bonus Rounds

The primary destination of the game is its 4 perk rounds. Gamers who have placed a wager on the particular bonus offer section are given entry into the mini-game [crazy time demo casino](#) when the wheel arrive on it.

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **Gameplay:** A simple red and blue coin is flipped by a device. Before the flip, each side of the coin is assigned a random multiplier. Whichever color lands face up figures out the gamer's payment.

2. Money Hunt

- **Frequency:** 2 sectors on the wheel.
- **Gameplay:** The screen displays a huge board featuring 108 random multipliers concealed behind shooting gallery symbols (like a duck, a cactus, or a target). Players are given a minimal time to objective and fire a cannon at a symbol of their option to reveal their multiplier.

3. Pachinko

- **Frequency:** 2 segments on the wheel.
- **Gameplay:** A glowing puck is dropped from the top of an enormous Pachinko wall filled with pegs. The puck bounces down randomly until it lands in one of the slots at the bottom, each containing a multiplier. If the puck lands on a "DOUBLE," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

- **Frequency:** Only 1 segment on the wheel.
- **Gameplay:** Players step behind a red door into a dynamic, surreal virtual world featuring an enormous 64-segment wheel. The host selects one of 3 flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the selected flapper points to is granted. Like Pachinko, this wheel includes "DOUBLE" and "TRIPLE" sectors, permitting multipliers to reach up to an incredible 20,000 x.
