Gamers position bets on the sectors where they believe the flapper will stop. If the wheel lands on a number, the bet wins. If it arrive at a perk video game symbol, players who placed a bet on that specific reward are transported to a separate mini-game for an opportunity at increased payments.

The Four Bonus Rounds Explained

The main appeal of Crazy Time lies in its four perk rounds. These mini-games offer the greatest multipliers and the most visually appealing gameplay.

1. Coin Flip

The easiest [crazy time slot features](#) of the reward rounds. A coin with a red side and a blue side is flipped by a maker. Before the flip, random multipliers are assigned to each side. Whichever side lands face up awards the gamer that corresponding multiplier.

2. Cash Hunt

Gamers deal with a massive screen displaying 108 random multipliers hidden behind numerous shooting targets (like cacti, targets, and hats). Using a virtual cannon, the gamer chooses one target, and the concealed multiplier

is exposed and used to their bet.

3. Pachinko

Inspired by the traditional Japanese arcade game, a radiant puck is dropped from the top of a large board filled with pegs. The puck bounces down and lands in one of the landing zones at the bottom, each including a multiplier. If it arrive on a "Double," all multipliers on the board double, and the puck is dropped again.

4. Crazy Time

This is the holy grail of the video game. Gamers go into a virtual, surreal world behind a red door, greeted by an even larger giant wheel. Players must select one of three flappers (Green, Blue, or Yellow). The wheel spins, and anywhere the picked flapper stops determines the prize. Multipliers can reach up to **20,000 x**.

Leading Betting Strategies for Crazy Time

While Crazy Time is basically a game of opportunity identified by a physical wheel, gamers utilize various betting approaches to manage their bankroll and maximize their playtime. Here are three typical methods:

 - *Approach:* Bet primarily on the numbers 1 and 2, while putting little hedge bets on the benefit rounds.
 - *Goal:* Maintain a steady bankroll with regular, smaller sized wins while keeping a foot in the door for bonus rounds.
- **The Bonus Hunter Strategy:**
 - *Approach:* Place equivalent or tiered bets exclusively on the four bonus offer games (Coin Flip, Cash Hunt, Pachinko, and Crazy Time).
 - *Goal:* Skip the little number payments entirely to concentrate on activating the high-multiplying mini-games. This needs a greater danger tolerance.
- **The Balanced Spread:**
 - *Approach:* Cover a mix of numbers (like 5 and 10) along with all four bonus offer video games.
 - *Objective:* Catch medium-sized number hits while preserving coverage for when the wheel hits a reward segment.
