Case battles modify this dynamic by introducing competition and shared stakes. Rather of opening cases in seclusion, multiple gamers (usually in between two and four) purchase the specific same set of cases. These cases are then opened at the same time in a shared digital arena.

Feature	Conventional Case Opening	Case Battle Mode	Individuals	Single gamer	Numerous gamers (2-- 4+)
Social Aspect	Isolated	Highly interactive and competitive	Winning Condition	Relies purely on private drop	
	Greatest overall item worth	wins the swimming pool	Pacing	Controlled totally by the user	Integrated rounds with live reveals

The defining rule of a basic case fight is simple: **the individual who accumulates the highest total financial worth from the opened products at the end of the fight wins the whole contents of the board.**
