- **Reel 2** display screens a random multiplier ranging from **2x as much as 50x**.

If the sign on Reel 1 lines up horizontally with the multiplier on Reel 2, that multiplier is applied to that particular bet. If the wheel arrive at that result, any winning bets for that sector are increased accordingly. If a multiplier arrive on a benefit video game, the multiplier uses to all worths inside that perk round, setting the stage for possibly huge payouts.

Dive Into the Four Bonus Rounds

The real magic-- and the greatest possible payments-- of *Crazy Time* lie within its four reward games. Activating among these rounds carries gamers from the primary studio into a high-production enhanced truth or physical set.

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **How it works:** An easy red and blue coin is turned by an automated machine. Before the flip, each side of the coin is assigned a random multiplier by the system. Whichever color lands face up identifies the winning multiplier for all gamers who bank on Coin Flip. If the multipliers are extremely low, a "Rescue Flip" can in some cases be activated for another possibility.

2. Cash Hunt

- **Frequency:** 2 sectors on the wheel.
- **How it works:** Players face a massive virtual screen including a gallery of 108 random multipliers hidden behind shooting targets (such as a cactus, a chef's hat, or a target). A countdown timer begins, and each player needs to utilize their cursor (or touchscreen) to intend and fire a cannon at a target of their option. When time ends, all cannons fire, revealing the specific multipliers behind the selected targets.

3. Pachinko

- **Frequency:** 2 sectors on the wheel.
- **How it works:** Inspired by the standard Japanese arcade game, this benefit round includes a huge physical Pachinko wall filled with pegs. The host drops a glowing puck from the top of the board. As the puck cascades downward, bouncing off the pegs, it ultimately lands in among the slots at the bottom, which displays a multiplier. If the puck lands in a **"DOUBLE"** slot, all multipliers at the bottom of the wall double, and the host drops the puck once again for even bigger prizes.

4. Crazy Time

- **Frequency:** 1 section on the wheel.
- **How it works:** The ultimate reward round. The host opens a red door, leading players into a vibrant, whimsical virtual world controlled by a massive virtual wheel containing 64 sectors and 3 flappers (Green, Blue, and Yellow).
- **The Process:**
 1. Players select among the 3 flappers (Green, Blue, or Yellow) before the wheel is spun.
 2. The speaker presses a huge red button to spin the massive wheel.
 3. When the wheel stops, the multiplier suggested by the gamer's chosen flapper is awarded.

4. If the flapper points to a "**DOUBLE**" or "**TRIPLE**" section, all multipliers on the wheel double or triple, and the wheel spins once again-- up to a maximum cap of **20,000 x**.
