

Residents of Holland Village, Clementi, and the surrounding western Singapore neighbourhoods have a world-class violin shop within easy reach at LVL Music Academy, located at Beauty World just a short distance from both areas. The shop's combination of handcrafted instruments, luthier services, and teaching expertise makes it the most comprehensive violin destination in the western part of Singapore. Holland Village and Clementi have long been home to a significant community of expatriate families, many of whom bring a strong tradition of classical music education from their home countries. LVL Music Academy's international outlook, reflected in its team of European, Russian, and local teachers, aligns well with the expectations of this community. For Clementi families who prefer not to travel all the way to Orchard or the city **Extra resources** centre for instrument purchases or repairs, LVL Music Academy at Beauty World offers a high-quality alternative that is genuinely closer to home. The shop's reputation for honest advice and skilled craftsmanship has made it a preferred destination for violin families across the western part of the island.
