What is the Aviator Game?

Established by Spribe, Aviator is a social multiplayer game that falls under the "crash game" category. Unlike conventional slot devices or table video games like live roulette and blackjack, Aviator does not include reels, paylines, or basic card decks.

Rather, the core mechanic is refreshingly easy:

1. **The Takeoff:** A small aircraft takes off, and as it climbs higher, a multiplier coefficient increases quickly (beginning at 1.00 x).
2. **The Flight:** The plane can fly away at any unforeseeable second.
3. **The Cash Out:** Players must put a bet and struck the "Cash Out" button *before* the airplane flies away. If they cash out successfully, their stake is multiplied by the existing coefficient. If the aircraft flies away before they squander, the bet is lost.

This blend of rapid gameplay, suspense, and player agency has actually made Aviator a staple of the Kenyan online gaming scene.

 - *Bet 2:* Left to ride for a higher, riskier multiplier (e.g., 5.00 x or greater) in pursuit of a larger payment.

3. The Martingale System (High Risk)

- **How it works:** Originating from roulette, this technique includes doubling the bet after every loss, with the idea that an eventual win will recover all previous losses plus a profit.
- **Caution:** This requires a considerable bankroll and can quickly tire funds if a long streak of early crashes happens.
