

When it comes to renting a dumpster for your home remodeling, cleanup, or roofing project in Hampton Roads, one worry always pops up:

"Am I putting anything in the dumpster that's prohibited? And if so, who can I call or text for a straight answer?"

At D.E.M.M. DUMPSTERS LLC, we get this question all the time. Whether you're tearing out an old kitchen, cleaning out a rental unit, or doing roof repairs, handling your waste disposal correctly saves you headaches and unexpected costs.

Why You Should Call or Text (757) 250-7356 Before You Load Up

D.E.M.M. DUMPSTERS LLC offers quick, reliable dumpster rentals with clear-cut pricing and no fine print surprises. The fastest — and best — way to avoid delays at pickup is to do a **restricted items check** by calling or texting (757) 250-7356 before you schedule your dumpster.

This ensures:

- You won't waste time waiting for a second dumpster or higher fees due to prohibited materials.
- Professional advice tailored to your specific project and waste type.
- Concrete answers — not fluffy or confusing marketing speak.

Fast Scheduling and Reliability: How D.E.M.M. DUMPSTERS LLC Makes It Easy

One of the biggest hassles in dumpster rentals is timing. You tear out, load up, then wait days demmdumpsters.com for pickup — or worse, get a last-minute call that your dumpster is overfilled or has forbidden waste inside.

D.E.M.M. DUMPSTERS LLC solves this with two key tools:

1. **24/7 Online Booking:** Schedule your dumpster anytime, day or night, without waiting on hold.

2. **Customer Login Portal:** Manage your rental, payments, and get real-time alerts or messages from the service team.

But the real MVP? That direct **call or text (757) 250-7356** line, where knowledgeable staff quickly answer questions about prohibited items or any doubts you have.

Clear Pricing With Real Numbers: No Bait-and-Switch Here

Too many companies hide extra fees in fine print or throw in vague “disposal charges” that bloat your bill after your dumpster is picked up.

At D.E.M.M. DUMPSTERS LLC, pricing is transparent:

Dumpster Size	Dimensions (L×W×H)	Upfront Rental Fee	Weight Limit	Overage Fee (per ton)
10-yard	12 ft × 8 ft × 3.5 ft	\$280 flat rate	2 tons (4000 lbs)	\$90/ton
15-yard	14 ft × 8 ft × 4 ft	\$350 flat rate	3 tons (6000 lbs)	\$85/ton
20-yard	16 ft × 8 ft × 4.5 ft	\$420 flat rate	4 tons (8000 lbs)	\$80/ton
30-yard	22 ft × 8 ft × 6 ft	\$520 flat rate	6 tons (12,000 lbs)	\$75/ton

Notice how every size shows exact dimensions and weight limits — none of that ambiguous “up to a ton” garbage. If you go over the weight limit, the overage fees are charged per ton with clear rates upfront. No surprises.

Choosing the Right Dumpster Size: Quick Checklist Before Booking

Picking the properly sized dumpster makes your project efficient and economical. Here’s a quick checklist to help you pick:

- **Estimate Your Debris Type:** Drywall and wood weigh less than concrete and dirt.
- **Calculate Volume:** Know roughly how many rooms or what cubic yards your project will generate.
- **Check Weight Limits:** A heavy load in a smaller dumpster means costly overage fees. When in doubt, call or text (757) 250-7356 for a recommendation.
- **Consider Access:** Driveway width and overhead clearance can restrict dumpster size options.
- **Plan for Fill Lines:** Never fill above the dumpster’s top rim; this violates safety and pickup rules.

Got specific questions? D.E.M.M. DUMPSTERS LLC reps stand by to help you pick the perfect dumpster size so you don’t waste money or time.

Weight Limits and Overage Charges: What You Must Know to Avoid Extra Fees

Many renters overlook the importance of weight restrictions until their dumpster is on the scale. Overweight dumpsters can mean:

- Delayed pickups while extra fees are confirmed.
- Unexpected charges ranging from \$75 to \$90 per extra ton depending on size.
- Refusal of service until overage fees are paid.

Remember, weight limits vary by dumpster size, and materials like concrete, bricks, roofing shingles, and dirt add weight fast. Avoid these issues by:

1. Asking about specific weight limits when booking (using call or text (757) 250-7356).
2. Discussing your project's debris type and estimated weight with D.E.M.M. DUMPSTERS LLC experts.
3. Ordering heavy material specific dumpsters when necessary.

Don't Risk Your Project Schedule: Avoid Delays at Pickup with a Prohibited Items Scan

Some items are outright banned from landfill disposal or require special handling. Typical prohibited items include:

- Paints, solvents, and chemicals
- Asbestos-containing materials
- Electronics and appliances with refrigerants
- Batteries and propane tanks
- Hot ashes or flammable materials
- Medical waste and sharps

Packing any of these can cause serious pickup delays, extra fees, or legal troubles.

Use this two-step approach:

1. **Before loading:** Call or text (757) 250-7356 and ask for a **restricted items check** relevant to your debris.
2. **During loading:** Follow any instructions or recommendations provided to keep your dumpster compliant.

D.E.M.M. DUMPSTERS LLC's customer support is trained to give you straightforward guidance, not vague warnings or "call back later" responses.

Conclusion: When in Doubt, Just Call or Text (757) 250-7356

Worries about prohibited items, confusing pricing, weight limits, and choosing the right size dumpster are all common — but completely avoidable.

D.E.M.M. DUMPSTERS LLC is your reliable local partner in Hampton Roads for clear, upfront pricing, fast scheduling with tools like 24/7 online booking and customer login, and the straight answers you need.

Save time and money:

- Use the call or text line (757) 250-7356 for your restricted items check, size recommendations, and pricing details.

- Book online anytime using the 24/7 booking tool or manage rentals via customer login.
- Follow weight limits and loading instructions carefully to avoid delays and fees.

Your waste management doesn't have to be complicated. Reach out today and get your project off to the smoothest start possible.

Happy dumpster loading!
