When a touch screen stops responding, the cause is often not what people assume. A phone that ignores your finger might have a damaged display, but it might equally have a software hang, a dirty or wet surface, or a thick screen protector that has started to lift. Free Fusion looks at unresponsive touch screens every week at our Corby shop, and a methodical check usually narrows it down quickly.

Start with the simple things at home. Wipe the screen with a soft dry cloth, remove any glove, case flap or screen protector that might be interfering, and restart the phone by holding the power and volume buttons as your model requires. If a restart brings the touch back, the problem was probably software. If only part of the screen is dead, such as a strip near the top or a corner that never reacts, that points much more strongly at the hardware. Pay attention to when the fault appears too. If it only happens while the phone is charging, a cheap or damaged charger may be introducing interference, so try another cable. If the problem comes and goes as the phone warms up, a failing connection inside is more likely. Noting these patterns helps us find the fault faster when you bring it in.

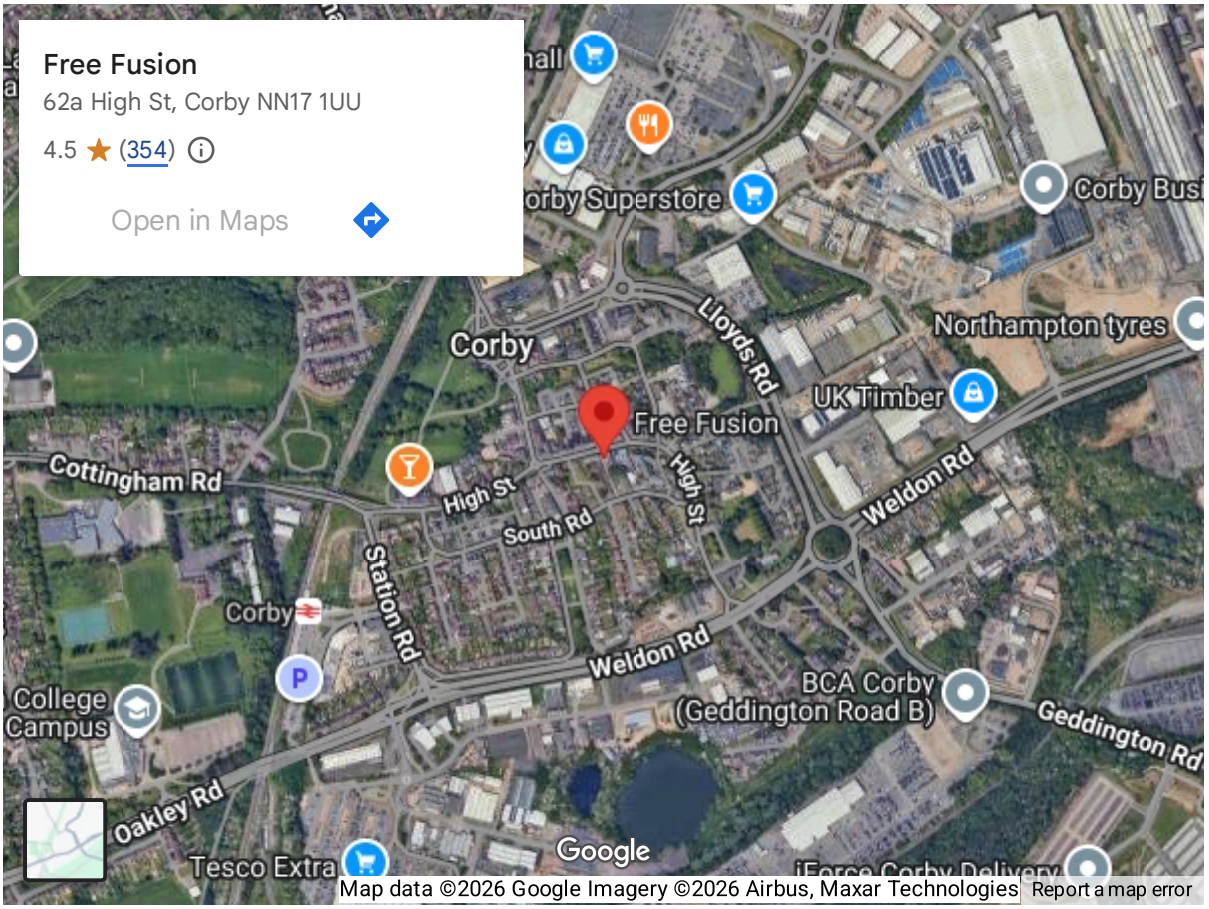

Free Fusion | 62a High St, Corby NN17 1UU | 01536 260 558

Physical damage is the commonest hardware cause. A drop can leave the glass looking perfect while breaking the touch phone screen repair layer beneath it, and moisture from a damp pocket or a splash can make the screen behave strangely for days. Sometimes a swollen battery pushes against the back of the display and causes erratic behaviour. This is why we run a diagnostic check before replacing anything, and it is free for local customers, so there is nothing to lose by asking.

If the screen does need replacing, an iPhone screen at Free Fusion starts from £24.99, with iPads from £39.99, and other models quoted once we have seen them. Most smartphone screen replacements are completed within about an hour at the Corby centre, and same-day service is available for most repairs. We are independent device specialists with more than a decade of experience, and our repairs are backed by a warranty.

Try to back up your photos and contacts before the touch gets worse, using a computer or cloud account if you can reach the settings. If the screen will not let you in at all, bring the phone as it is and we will talk through the options. Call 01536 260 558 or walk in to 62a High St, Corby. Customers further afield can post the device to us by Royal Mail or DPD, and we will test it properly on arrival.

FAQ About

Phone Screen Repair How much does it cost to fix a phone screen? Prices vary by model and screen type. At Free Fusion in Corby, iPhone screen repairs start from £24.99 and iPad screen repairs from £39.99. Local customers get a free diagnosis, so you will know the exact price for your handset before any work begins. How much does an iPhone XS screen repair cost? The price for an iPhone XS depends on the exact model and the screen being fitted, so the quickest way to get an exact figure is to call Free Fusion on 01536 260 558. Our iPhone screen repairs start from £24.99, and we will confirm the price for your model before we start. Most iPhone screen replacements are done in about an hour. How much does an iPhone screen repair cost in the UK? Across the UK the price depends on the model, and newer iPhones generally cost more to repair than older ones. At Free Fusion in Corby, iPhone screen repairs start from £24.99. We also offer a postal service, so you can get the same pricing wherever you live in the UK. How long does a phone screen repair take? Most smartphone screen replacements at Free Fusion take about an hour, and most repairs are completed the same day. You are welcome to walk into our Corby centre and wait, or call 01536 260 558 first to check we have the part for your model. Is it worth repairing a cracked phone screen? For most phones it is, particularly when repair prices start from £24.99 and the rest of the phone works well. A cracked screen can let in moisture and dust and can get worse over time. If you are unsure, Free Fusion offers a free diagnosis for local customers so you can decide with the facts in front of you. Can you repair the screen on my Samsung, Pixel or iPad? Yes. Free Fusion repairs screens on Samsung Galaxy phones, Google Pixel, iPads and Apple Watches as well as iPhones, plus screens on MacBooks and laptops. Call 01536 260 558 with your model and we will talk you through the options. What should I do straight after cracking my phone screen? Back up your phone if you can still use it, and avoid pressing on broken glass or touching sharp edges. A screen protector film or clear tape over the glass can keep it from shedding while you get to a repair shop. Then bring it to Free Fusion at 62a High St, Corby, or call 01536 260 558 for advice. Can a screen with lines, flickering or a black display be repaired? Often yes, though the cause can be the screen itself or something else inside the phone. That is why a proper diagnosis matters. Free Fusion offers a free diagnosis for local customers in Corby, so you only pay for the repair that is actually needed. Is a screen repair covered by a warranty? Yes, repairs at Free Fusion are backed by a warranty. Ask the team about the terms that apply to your repair when you visit us in Corby or phone 01536 260 558. Do you offer postal phone screen repair? Yes, we repair devices sent in from anywhere in

the UK using Royal Mail and DPD. Posted devices are typically tested and dispatched on the day they arrive. Call 01536 260 558 before you send anything so we can advise on the best way to package it.
