2. **Pachinko** (2 sectors on the wheel)
3. **Cash Hunt** (2 segments on the wheel)
4. **Crazy Time** (1 sector on the wheel)

The Four Thrilling Bonus Rounds Explained

When the wheel stops on a bonus offer sector, all players who put a bet on that particular bonus offer round are transferred to a separate, immersive set (or augmented truth screen) to get involved.

1. Coin Flip

The most basic of the benefit rounds, Coin Flip includes a coin with a Red side and a Blue side. Each side is appointed a random multiplier by the game system before the flip. The host pulls a lever to turn the coin, and whichever side lands face up awards the player that matching multiplier. If multipliers are low, a "Rescue Flip" can often be activated for a 2nd possibility.

2. Pachinko

Influenced by the standard Japanese arcade video game, the Pachinko perk round features a massive wall filled with physical pegs. The game host drops a puck from the top of the board, and it bounces randomly down through the pegs up until it lands in one of the multiplier zones at the bottom.

- If the puck lands on a **"Double"** value, all multipliers at the bottom of the wall double, and the puck is dropped again for even higher stakes.

3. Money Hunt

Cash Hunt is an interactive shooting gallery minigame. Gamers exist with a massive screen showing 108 random multipliers concealed behind different symbols (such as a cactus, a target, or a chef's hat).

- Players utilize an on-screen crosshair to objective and "shoot" their chosen symbol before the timer runs out.
- As soon as time ends, all symbols expose their surprise multipliers, and players get the multiplier connected to their selected target.

4. Crazy Time

The crown gem of the video game is the Crazy Time bonus offer round. Players stroll through a red door into a dynamic, virtual wonderland featuring an enormous, 64-segment mega wheel.

- Before the wheel is spun, players should choose among three flappers: **Green, Blue, or Yellow**.
- The wheel is spun, and whichever multiplier the chosen flapper points to is granted to the gamer.
- Just like Pachinko, this wheel includes **"Double"** and **"Triple"** sectors. If the flapper lands on among these, the multipliers on the wheel boost, and the wheel is spun once again-- potentially pressing payouts as much

as the video game's maximum limit of **20,000 x**.
