If you've ever tried to fit a dumpster on a tight Chesapeake driveway, you know the struggle is real. Driveway protection isn't just about convenience; it's about avoiding costly scratches, gouges, or even damage to your property during a remodel, roofing tear-off, or rental turnover. One of the most common questions we hear at DEMM Dumpsters is, *"Do you charge extra for driveway boards in Chesapeake?"* As someone with nearly a decade in site cleanup and operations coordination around Hampton Roads, I'll break down everything you need to know about driveway boards, dumpster sizes, transparent pricing, and how we keep your project moving fast.

## Why Driveway Boards Matter

When you place a dumpster on your driveway — especially a narrow or delicate Chesapeake driveway — driveway boards serve as a protective barrier between the heavy, steel dumpster and your asphalt, concrete, or paver surface. Here's why they're essential:

- **Prevent Damage:** Avoid deep divots and cracks caused by a dumpster's weight.
- **Distribute Weight:** Boards spread the dumpster's load, reducing pressure points.
- **Keep Your Property Intact:** No unsightly stains or gouges from dumpster legs or wheels.
- **Compliance:** Some HOA rules and local Chesapeake ordinances recommend or require driveway protection.

## Do We Charge Extra for Driveway Boards in Chesapeake?

Short answer: **Yes, but here's the deal.** At DEMM Dumpsters, driveway boards are considered an add-on option —commonly referred to as a *driveway boards add-on*. We offer this service upfront and transparent, so you're not hit with surprise fees.

This add-on is priced separately because it requires extra labor to place and pick up the boards, as well as the maintenance of the boards themselves. But we keep it affordable and fair, because protecting your driveway shouldn't break the bank.

## Transparent Pricing With Real Numbers

Unlike some companies that hide these fees in fine print or present vague rates, our pricing for the driveway boards add-on is **clearly shown upfront** during the quote process—no surprises. Here's a breakdown of what you can expect:

Service Price Details  
Driveway Boards Add-On \$50 flat fee Includes delivery, placement, and pickup of 3 high-grade plywood boards (4'x8' each)  
Dumpster Rental (10 Yard) \$300 Includes 7-day rental, delivery & pickup, 2,000 lbs weight limit  
Dumpster Rental (20 Yard) \$425 Includes 7-day rental, delivery & pickup, 4,000 lbs weight limit  
Dumpster Rental (30 Yard) \$525 Includes 7-day rental, delivery & pickup, 6,000 lbs weight limit

As you can see, the driveway boards add-on is relatively inexpensive considering the value it adds by protecting your investment in your home or rental.

## Dumpster Sizes, Dimensions, and Best Use Cases

Choosing the right dumpster size can save you time, money, and headaches. Here's a quick overview of the most popular dumpster sizes we deliver in Chesapeake, along with dimensions and common applications:

Dumpster Size Dimensions (L x W x H) Capacity Best Use Cases  
10 Yard Dumpster 12' x 8' x 3.5' ~10 cubic yards  
Small renovations, garage cleanouts, minor debris removal  
20 Yard Dumpster 22' x 8' x 4' ~20 cubic yards  
Medium remodels, roofing tear-offs, extensive yard debris  
30 Yard Dumpster 22' x 8' x 6' ~30 cubic yards  
Large home renovations, whole-house cleanouts, commercial jobs

When you're booking a dumpster with us, we'll help you pick the size that fits your scope with efficiency in mind. If the dumpster won't fit comfortably in your driveway without contacting your landscaping or adjacent fencing, ask about the driveway boards add-on for peace of mind in Chesapeake.

## Weight Limits and Overage Costs Explained

Setting correct weight limits and understanding overage costs is crucial so you don't get slammed with surprise fees at the end of a project. Each dumpster size comes with a pre-set weight limit based on what our trucks can safely haul and local landfill regulations. Here's a quick guide:

- **10 Yard Dumpster:** 2,000 lbs
- **20 Yard Dumpster:** 4,000 lbs
- **30 Yard Dumpster:** 6,000 lbs

If you exceed the weight limit, overage fees usually apply. For example, our typical overage cost is around \$100 per additional 1,000 lbs. Again, we show this information upfront before you place an order, so you know exactly what the potential costs are.

## How Driveway Boards Help Manage Weight and Distribution

Driveway boards don't reduce the dumpster's total weight, but they better distribute it across the driveway surface, preventing concentrated pressure points that cause driveway damage. For coastal Chesapeake driveways, which often have older asphalt or delicate concrete, this can make the difference between a clean pick-up and a homeowner facing expensive repairs.
