The primary goal for the player is simple: place one or 2 bets before the round starts, enjoy the aircraft take off, and squander before the aircraft inevitably flies away. If a gamer effectively squanders before the crash, they win their initial bet increased by the present coefficient. If the airplane flies away-- or "crashes"-- before they squander, the bet is lost.

Unlike standard fruit machine where the result is figured out completely by an undetectable reel spin, Aviator provides players a sense of agency. The gamer decides *when* to gather their payouts, turning every round into a test of nerve and timing.

How a Standard Round Works
